500 Word Essay

Your 500-word essay will total 40% of your overall evaluation.

Please respond to one of the following questions:

Option A

The Canadian government recently announced they would be renewing the Oceans Protection Plan (OPP 2.0) to protect Canadian waters and coasts. The government has committed to improving marine safety, building partnerships with indigenous and coastal communities, and supporting economic opportunities. How do you feel the money should be spent to best protect Canada's West Coast?

Option B

Marine shipping is an important part of Canada's international trade. Marine trade employs approximately 250,000 Canadians and injects more than \$25 billion to Canada's economy. Increased shipping traffic can impact the marine environment. How can Canada balance the importance of marine shipping and the importance of the marine environment?

I hereby declare that the above information is complete and correct.
